WORK EXPERIENCE

Oliver Wyman, Consultant, Toronto, ON — January 2025 – Present

- Delivered buy- and sell-side due diligence on five PE engagements (targets up to $675M) across software, industrials, and consumer, including financial and operational modelling; one sell-side mandate closed in a strategic roll-up
- Led full-cycle data analytics workstreams on the traffic study for the $85B Union Pacific–Norfolk Southern merger filed with the Surface Transportation Board, projecting 2.1M truckloads diverted to rail annually
- Cut model development time by up to 90% using Claude Code and AI-assisted code review, and drove adoption across my team; managed and coached three junior colleagues in SQL and Python to meet regulatory deadlines
- Led a client success turnaround for a compliance software company, redesigning the operating model and leadership organization behind a $50M+ renewals book; presented to the CEO, who acted on my recommendation to bring in new go-to-market leadership
- Identified a $9M warranty capture opportunity for a U.S. car rental company (now in implementation) by separating recoverable spend from data-quality noise across a ~400K-vehicle fleet
- Built the analysis behind a Canadian oil company's business case to divest 50 retail locations across Ontario and Quebec (since completed), forecasting site-level fuel demand under EV adoption scenarios
- Lead campus recruiting at UBC and U of T, engaging 100+ students at info sessions and case competitions

Templeton Research, Research Assistant, Vancouver, BC — May 2024 – October 2024

- Conducted 10+ enhanced due diligence cases on management and operations for U.S. activist investors, hedge funds, and law firms across SaaS, financial services, automotive, and industrials
- Compiled a North American OSINT reference document spanning 10+ jurisdictions for a 20+ person team

EARLIER EXPERIENCE

YCI HerStart Innovate the Future, Social Entrepreneurship Fellow, Zanzibar, TZ — September 2023 – March 2024

- Designed and ran a pitch competition awarding $1K–$5K CAD grants to early-stage social enterprises; trained trainers to roll the program out across Tanzania, Ghana, and Uganda, reaching 100+ founders

KPMG, Management Consultant Co-op, Vancouver, BC — May 2022 – August 2022

- Mapped the competitive landscape of 6 warehouse management systems and 12 autonomous mobile robot providers for a Fortune 500 tech company; redesigned the operating model for a 20+ person data science team

RBCx, Data Analyst Co-op, Toronto, ON — January 2022 – April 2022

- Designed a customer retention metric (SQL, survival modelling, Tableau) across 50,000+ small business accounts at Ownr; taught the method to 50 attendees, and RBCx's ventures analytics center of excellence adopted it as a core service

CIBC, Business Systems Analyst Co-op, Toronto, ON — January 2021 – August 2021

- Developed an internal web scraper to track competitor rates and offers, cutting manual research time by 90%; automated requirements sign-off in Power Automate, reducing request turnaround by 75%

AVA Technologies (AgriTech Startup), Business Analyst Co-op, Vancouver, BC — June 2020 – September 2020

- Built financial models and pitch decks with the founders, supporting AVA's acceptance into the Google for Startups Canada accelerator; implemented OpenBOM with engineering to streamline purchasing and production

EDUCATION

The University of British Columbia, Sauder School of Business, Vancouver, BC — September 2018 – May 2023

- B.Com. (Honours), Business and Computer Science (BUCS) Co-op; GPA: 86.3%; GMAT: 730 (96th percentile)
- Venture Capital Investment Competition (VCIC): evaluated startups and negotiated mock term sheets in Halifax, NS
- Activities: Strategy Consulting Mentorship Program, UBC LIFT: Africa (Service Learning), Jazz Club (Saxophonist)

TECHNICAL SKILLS

Python, SQL, Power Query, Databricks, Power BI, Git, Claude Code
